

IAN VAN BUREN

ABOUT

Computer programming, music, photography, foreign language, and travel. These are some of my greatest passions that have helped me discover that success is found outside of your comfort zone. Each day, I'm working towards my goals and learning from every step of the journey. I believe in supporting those around you and surrounding yourself with those who support you. These practices continue to help me grow as an individual, a leader and a friend. For everything I aim to accomplish, I know that consistency, hard work and having a little fun will get me there.

"When something is important enough, you do it even if the odds are not in your favor."
– Elon Musk
